

We came to visit Louie for a play date and we absolutely fell in love with the home and surroundings.

Although it was the first time that we had visited; the staff were lovely and very welcoming, the atmosphere is very relaxed and homely, enabling us all to feel comfortable.

Having not been here before I was pleasantly surprised by the amount of space the children have to play and carry out particular therapies. My daughter can crawl short distances but otherwise cannot get around independently, which is why I was so happy to see the amount of equipment made to aid and encourage independence.

From our first day there it was obvious how much Sara and her team truly care about the wellbeing and happiness of these children, they go above and beyond to fulfil the care needs and ensure the happiness of the children. We are very much looking forward to visiting Louie more and spending more time in this environment.
